ADDITIONAL INFORMATION SUPPORTING njd (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite): **The wetland is located in a relatively flat, agricultural setting. A review of the NWI maps and Topographic maps indicate that the wetland is surrounded by upland. No ditches are indicated in the mapping. A field review by the USDA confirmed that there are no ditches draining the basin. The Wadena County soil survey indicates that the wetland basin is surrounded by well drained upland soils. The wetland is located on private property and is unlikely to support interstate commerce.**
